

Four children borrowed a specific book from the library. Each book has a unique subject and number of pages. Find out in which month each child got the book and its number of pages.

1. If Janet got a history book, then the fantasy has 350 pages.

2. The thriller is 50 pages larger than the book borrowed in May, but 50 pages shorter than Anthony's choice.

3. A girl borrowed a book in May, the other girl got a history book. Janet didn't get the shortest book.

4. Exactly one of the customers shares the initial in the name and in the month he/she got a book.
5. The fantasy book is 50 pages larger than Mark's book.

6. Neither a fantasy book nor a romance one were borrowed in June.

7. The largest book and the romance one have been borrowed in consecutive months.

8. If Mark borrowed a book in April, then the fantasy book is 400 pages long.
