Four friends organized their schedule to wash their clothes. Each one used a detergent and had a specific type of clothes to wash. Figure out who washed the white clothes.

1. Sandra washed her clothes one hour earlier than the person who washed red clothes.
2. Sandra washed her clothes one hour earlier than the person who used pine scented detergent.
3. Of the person who washed black clothes and the person who used jasmine scented detergent, one washed the clothes at 17:00 and the other washed the clothes at 16:00.
4. Of Julian and the person who used the lavender scented detergent, one was the first to wash the clothes and the other washed black clothes.
5. Celia washed her clothes two hours earlier than the person who washed green clothes.
Use the logic to find out which girl owns the crocodile.
