

Lana is studying four secret interstellar missions that were launched in different years. Match each spaceship's name to the year it was launched and the mission type.

- The Black Hole Study mission was launched 6 years before the Star Survey mission.
- The Nova is either the spaceship launched in 2009 or the one on the Nebula Mapping mission.
- The Celestia is either the spaceship launched in 2012 or the one on the Nebula Mapping mission.
- The four spaceships are the one on the Black Hole Study mission, the Aurora, the spaceship launched in 2009, and the spaceship launched in 2003.
