

# Cat Breeds - Logic Grid

Figure out the age and favorite food of four cats from different breeds. Each cat is wearing a colored collar.

		Collar				Age				Food			
		Black	Green	Pink	White	1	2	3	4	Chicken	Duck	Fish	Turkey
Breed	Asian												
	Highlander												
	Manx												
	Persian												
Food	Chicken												
	Duck												
	Fish												
	Turkey												
Age	1												
	2												
	3												
	4												

1. The ages of the Highlander and the cat with white collar sum up to 6. They don't like fish.
2. The cats with green and pink collar have 1 year of difference. They aren't Persians.
3. The Manx cat is black, or he likes duck.
4. The Persian isn't 3 years old. He doesn't like turkey nor duck.
5. Chicken loving cat is 1 year older than the cat wearing a green collar.
6. The cat with a pink collar is Asian, or he likes duck.
7. The cat with the black collar is 1 year younger than the cat with the green one.
