

Funny Rides - Logic Grid

Four kids visited the funfair and went to their favorite ride at different times. Which ride was chosen last?

1. Exactly one of the kids has the same initial in the name and in the ride he/she has chosen.
2. Bernard went to the funfair one hour after the girl who was on the slingshot.
3. The carousel and the roller coaster cost \$5.50. Caroline didn't go there.
4. Caroline went to the funfair at 16:00 or 17:00. She spent \$2.50 or \$3.
5. The ride chosen at 18:00 cost \$2 or \$3.
6. Robert spent \$1 less than the person on the slingshot.
7. The carousel was chosen at 16:00 or at 18:00.
8. The cheapest ride was chosen at 16:00 or it's the bumper cars.
9. The roller coaster costs \$0.50 more than the ride chosen at 18:00.

		Ride				Time				Price			
		bumper cars	carousel	roller coaster	slingshot	16:00	17:00	18:00	19:00	\$2	\$2.50	\$3	\$3.50
Kid	Bernard												
	Caroline												
	Robert												
	Samantha												
Price	\$2												
	\$2.50												
	\$3												
	\$3.50												
Time	16:00												
	17:00												
	18:00												
	19:00												

Kid	Ride	Time	Price
