

Paperkids on the Road - Logic Grid

Today four kids earned some money by delivering hundreds of papers. Which kid is the owner of the silver bike?

1. Exactly one of the kids has the same initial in their name and in the color of their bike.
2. The kid on the silver bike delivered exactly as many newspapers as 100 times his/her age. Nobody else did it.
3. Brian delivered 100 less newspapers than the kid with the purple bike.
4. The kid on the black bike is 10 or 13 years old.
5. Sandra either is 12 or has the silver bike.
6. The kid who delivered 1100 newspapers is one year younger than Sandra.
7. The owner of the purple bike delivered 1200 newspapers or is 12 years old. However, this kid is not 11.
8. One of the girls owns the green bike, the other girl delivered 1000 newspapers.
9. The 13 years old kid didn't delivery 1000 newspapers.
10. If George is 11, then Brian is 10.
