

Skateboard Tricks - Logic Grid

Four kids are learning new tricks with their skateboard. Which one of them is the youngest?

1. Exactly one of the kids has the same initial in its name and in the color of their board.
2. Among Roland and the 13 years old kid, one of them is learning the nollie, the other has a yellow skateboard.
3. Yasmin is one year older than Geremy.
4. Alfred and the 11 years old kid are learning flips.
5. The kid learning the heelflip is 1 year younger than the kid learning the nollie. None of them has the red board.
6. The black skateboard belongs to the 11 or 12 years old skater.
7. The kid on the green board is either learning the nollie or the kickflip.
8. The 12 years old is Roland or has the black board.
