

Einstein's Riddle - Zebra Puzzle

The legend says that this problem was created by Albert Einstein in the last century. Einstein said that only 2% of the world could solve it. There are five houses of different colors next to each other. In each house lives a man. Each man has an unique nationality, an exclusive favorite drink, a distinct favorite brand of cigarettes and keeps specific pets. Use all the clues below to fill the grid and answer the question: ****"Who owns the fish?"****
